## OUR TARGET AUDIENCE

## PURPOSE OF MINDSTAPLE

"Imagine the possibilities that can be achieved through intelligent and sensible educational technologies"

# HOW IS IT USEFUL FOR MANAGEMENT

- Effective Records Maintenance
- Integrates academic, organizational and business processes reducing repetition of tasks
- Monitor Staff performance & Quick Disposal of Issues
- Reduces annual expenditure on Human Resources.
- Helps Management to focus on other developmental plans
- Generates different types of daily activity reports from all departments
- Cost and efforts spent to collect and store student information is nil
- Reduces use of paper, Xerox, printer , electricity, manpower
- Prevents pilferage and misuse of office stationery
- Circular to staff is made simple and easy
- Availability of notes for circulation even if the staff is on leave
- Parents as login members, are responsible for updation of details about Student Personal Information

# HOW IS IT USEFUL FOR TEACHERS

- Teachers can plan their teaching schedule in advance
- Improves teaching capabilities In the longer run
- Teachers can keep track of individual student records
- Teachers can upload the notes & videos to the students through Super Share
- They can effectively communicate to students through internal mail service
- Notes once uploaded can be edited based on the present condition.
- Self-generated reports for teachers to assess themselves
- Marks and Grades are assigned through the software (No paperwork involved )
- Notes can be enabled , disabled and deleted by the moderator ( in this case, the teacher)
- Individual records contain data like Student average marks, attendance sheet, understanding ability, etc

## HOW IS IT USEFUL FOR STUDENTS

- Students get complete access to reading materials.
- Reading materials extend from PowerPoint slides, e-homework to online references
- Subject notes of teachers from other sections are available through Super Share (This way students learn different methods of answering a question)
- Students can keep the notes which they feel is suitable for them
  - Syllabus of the entire year is uploaded online (Plan your study schedules accordingly)
  - Lessons are uploaded within the time frame (Students can complete assignments before deadline)
- Get updates on exam schedules, record submission, holidays, fee payment, etc
- Videos of any sizes can be uploaded & viewed by any number of students at a time
  - Students can learn & revise anytime, anywhere

## HOW IS IT USEFUL FOR PARENTS

- View Child performance
- Performance can be categorized into exam results, daily progress, concept understanding & extra-curricular activities
- Effective interaction with Teachers & Management
- Receive Teacher's feedback on child's performance
- Instant notifications regarding school events, holidays, meetings, etc
- Receive important updates on fee payments & examination schedule
- Detailed Exam reports – Class Average & highest marks.

“Effectiveness of data Management is not only having it but also depends on how fast you retrieve it”

**OUR SYSTEM MAKES IT EASY!**

## UPCOMING DEVELOPMENTS

- ERP for educational institutions ( Universities, Schools, Tuition academies)
- Reports on Marks and Attendance
- Conduct Online tests (sorts out unique questions to every student)
- Online mark assessment (No paperwork is involved)
- Online competitions for students
- Online submission of assignments & homework
- Online Fee Payments
- Online availability of Resources like NPTEL videos
- Video conferencing
- Virtual board/White board
- Multi –edit a single document (real-time)
- Hostel Management System
- Canteen Management System
- Library Management System
- Facilities Management System
- The software suggests effective study time-table for each student based on study patterns
- Hands on training with favorite technology and fields online
